

First Announcement for IWAEM'24

Dear JSEM members, IWAEM'23 Participants, and Colleague:

We would like to express our heartfelt gratitude for your continued cooperation in the activities of the Japan Society for Experimental Mechanics (JSEM).

Similar to the last year, JSEM will organize the International Workshop on Advanced Experimental Mechanics for Students and Young Researchers (IWAEM). IWAEM'24 will be held as a hyflex format which combines face-to-face and live online meeting. Whether you are presenters or audiences, you can participate on-site or online. Overview of the workshop is described below:

Date

November 15 (Fri.) and 16 (Sat.), 2024.

Workshop Style

Hyflex (some participants at a physical venue, others joining online from different locations at the same time). This type of presentation involves both face-to-face and online events regardless of presentation styles (Oral or Poster).

Venue

Meeting room near Osaka (Umeda) station. Details of the venue will be announced as soon as it is decided.

Deadline of Abstract Submission

Around early -October, 2024.

The special session on poster presentations by students of colleges of technology will be also organized as a hyflex format in the afternoon of November 16, 2024.

Please keep checking the latest announcement on the JSEM website. <https://jsem.jp/>

We would appreciate your understanding and contribution to the workshop.

IWAEM'24 Organizing Committee, Chairperson

Yoichi Shiomi (Ryukoku University)
