**Selected Papers of the 2nd ISEM07-OSAKA, 2007**

*Fluid Mechanics*

|  |    |
|--|----|
| Flow Rate Measurement in Unsteady Pipe Flow through a Plate Orifice.....   | 1  |
| Yusuke NAKAHATA, Iori WADA, Kazuyoshi NISHIHARA and Manabu IGUCHI  |    |
| Pressure Loss, Heat Transfer Coefficient and Flow Pattern in Drag-Reducing Two-Phase Flow of Air and Surfactant Solution inside a Vertical Tube.....     | 6  |
| Koichi ARAGA and Keiji MURATA  |    |
| Critical Reynolds Number in Constant-Acceleration Square Duct Flow.....  | 12 |
| Yusuke NAKAHATA, Iori WADA, Kazuyoshi NISHIHARA and Manabu IGUCHI  |    |
| Fractal Scale Indication of Oil-Water Two Phase Flow Characteristics.....  | 19 |
| Yanbo ZONG, Ningde JIN, Xin ZHAO, Zuoting YIN and Wei ZHANG  |    |
| Stability of Annular Flow and Flow Pattern Transition to Churn Flow.....   | 25 |
| Mitsushi OHMASA, Toru SAWAI, Masuo KAJI and Shoji YAMAUCHI   |    |
| Effect of Gas Humidity on Material Temperature and Moisture Content Changes of Wet Spherical Porous Material in Humid Hot Air and Superheated Steam..... | 31 |
| Tamotsu INOUE, Hiroyuki IYOTA, Tomoki TANAKA and Nobuya NISHIMURA  |    |
| Particles Concentration Measurement of Fluidized Bed in Wavy Flow by Impedance Method.....   | 37 |
| Tsuneo NOGUCHI, Masaaki HONDA, Masahiro TAKEI, Kunihiro HOSHINO, Susumu ISHII and Mitsuaki OCHI  |    |
| Numerical Experiment of Drop Spreading by Front-Tracking Method: Accurate Representation of Interfacial Tension at Contact Line.....                     | 43 |
| Yasufumi YAMAMOTO and Tomomasa UEMURA  |    |
| Profiles of Liquid Droplets on Solid Plates in Gravitational and Centrifugal Fields.....   | 49 |
| Mitsuyoshi HIGASHINE, Kenji KATOH, Tatsuro WAKIMOTO and Tsuneo AZUMA   |    |
| Flow Visualization and PTV Analysis of Radial Inflow in a Closed Rotating Cylinder with One Fixed Stirrer-Type End.....                                  | 55 |
| Hideharu TAKAHASHI, Tat Thang NGUYEN, Hiroshige KIKURA and Masanori ARITOMI  |    |
| Drag Reduction of Pipe Inlet Flow.....   | 61 |
| Toshitake ANDO, Toshihiko SHAKOUCHI, Hiroyuki YAMAMOTO and Koichi TSUJIMOTO  |    |
| Development of New Sponge Ball Cleaning System for Air Conditioning Facility.....  | 66 |

|   |    |
|---|----|
| Hideaki MONJI, Syun SASAKI, Motoji NAKAJIMA and Toshio MIDORIKAWA<br>Characteristics of Boiling Flow in Helically Coiled Heat-Transfer Tube | 72 |
| Goichi MATSUI, Masatomi SUZUKI and Masuo KAJI   |    |

## ***Solid Mechanics***

|  |     |
|--|-----|
| Dynamic Visualization of Stress Distribution on Metal Surface<br>by Mechanoluminescence Image                                      | 78  |
| Chenshu LI, Chao-Nan XU, Lin ZHANG, Hiroshi YAMADA and Yusuke IMAI   |     |
| Digital Simulation of a Circular Ring Loaded by a Diametric Compression<br>for Photoelastic Analysis                               | 82  |
| Yudai NOMURA, Pichet PINIT and Eisaku UMEZAKI  |     |
| Extraction of Singularities in Isoclinic Phase Map for Isoclinic Phase Unwrapping<br>in Digital Photoelasticity                    | 87  |
| Pichet PINIT and Eisaku UMEZAKI  |     |
| Inner Structure / Elastic Modulus Control of Micro Cantilever  | 93  |
| Masafumi MIWA, Takuro MICHINOMOTO, Kunitomo KIKUCHI, Shigeki TSUCHITANI<br>and Satoru YONEYAMA                                     |     |
| Effects of Strain Rate on the Compressive Stress-Strain Loops of Several Engineering Plastics                                      | 97  |
| Takashi YOKOYAMA and Kenji NAKAI   |     |
| Evaluation of Physical Properties of Inorganic-Based Composite<br>Filled with Aluminum Particles                                   | 103 |
| Kiyomi MORI, Toshiaki KITAZAWA and Hiroji NAGATA   |     |
| Strain Measurement Method for Tilted Planar Object by Phase-Shifting Digital Holography<br>Combined with Grating Projection Method | 107 |
| Kohei SHIOTANI, Motoharu FUJIGAKI, Toru MATUI and Yoshiharu MORIMOTO   |     |

## ***Materials Engineering and Bioengineering***

|  |     |
|--|-----|
| Bubble Formation Frequency at a Single-Hole Nozzle Immersed in a Mercury Bath                                  | 113 |
| Manabu IGUCHI, Tomoyuki CHIHARA, Ryoji TSUJINO, Yasushi SASAKI,<br>Kazuyoshi NISHIHARA and Goichi MATSUI       |     |
| Nondestructive Detection of Damage in Woven Fabric Composite Laminate<br>using Energy Index Method             | 118 |
| Huiwen HU and Jieming WANG   |     |
| Effect of Machining Parameters on BK7 Optical Glass using Conventional<br>and Rotary Ultrasonic Machines       | 125 |
| Esah HAMZAH, Izman SUDIN, Chun-Yong KHOO, Nor Najwa ZAINAL ABIDIN and Ming-Jiun TAN                            |     |
| Measurements and Analysis of Molten Silicon Temperature and Flow<br>in Solidification Process of Solar Silicon | 131 |
| Seiko NARA, Toshio ISHII, Hirofumi MIYAHARA and Keisuke OGI  |     |
| Simple Removal Method of Dioxins in Wastewater by Adsorption on Polyolefin Particles                           | 136 |
| Hiroto KAWABATA, Hideki ONO-NAKAZATO and Tateo USUI  |     |
| Effect of Residual Volatile Matter on Reduction of Iron Oxide in Carbon Composite Pellets                      | 140 |
| Hirokazu KONISHI, Atsushi YAMASHITA and Tateo USUI   |     |
| Prevention Method of Swirling Flow Generation in Discharging Liquid in the Reactor Vessel<br>through a Nozzle  | 145 |

|  |     |
|--|-----|
| Hideki ONO-NAKAZATO, Kenji TAGUCHI and Tateo USUI<br>Effects of Channel Gap and Channel Attitude on Flow Pattern of Air-Water Two-Phase Flow<br>in Rectangular Millimeter-Scale Channels·····    | 150 |
| Takehiko KUMAGAI, Yoshiyuki OKUYAMA and Manabu IGUCHI<br>Some Aspects of the Amplitude of Swirl Motion of a Cylindrical Bath Induced by a Liquid Jet····   | 156 |
| Takeshi KAWAYAMA, Daisuke IGUCHI, Masahiro GOTOU, Satoshi MIKI and Manabu IGUCHI<br>Dynamic Behavior of Dragonfly Wings·····   | 161 |
| Seiichi SUDO, Kazuto TAKAGI, Koji TSUYUKI and Tetsuya YANO<br>Observation of Behavior of Microorganism in Microchannels That Simulate Pouring Lip<br>for Containers of Liquid Food Products····· | 167 |
| Taiki HOSHI, Eisaku UMEZAKI and Katsunori FUTASE   |     |
